

Release Agent R8

PTFE aerosol release agent

Release Agent R8 is a PTFE release agent for use on metals, wood, leather, rubber and ceramics. Release Agent R8 is especially useful as a running in lubricant for packing and for applying to gaskets to aid easy removal.

Special Features

- Gives an extremely slippery surface.
- Unaffected by water and inert to most chemicals.
- Lubricates without wetting, can be used in a wide variety of applications where wet lubricants would fail.
- Will not melt or freeze off.
- Ozone friendly.

Product Data

Property	Typical Value
Colour	White
Vapour Pressure	< 4.0
Vapour Density	4.2
Flash Point	- 29°C
TLV	Very low order of toxicity
Minimum Operating Temperature	- 240°C
Maximum Operating Temperature	+ 260°C

Application

Ensure surface is clean and dry before application. Shake can well. Spray onto surface from 20 – 30 cm. Wipe off excess with a lint free cloth.

Storage

Store in a cool, dry place out of direct sunlight.

Packaging

400ml aerosol can

Further Information

Our technical advice, whether verbal, or in writing is given in good faith, but without warranty – this also applies where proprietary rights of third parties are involved. It does not release you from the obligation to test the products supplied by us as to their suitability for the intended process and use.

Before using any of our products, users should familiarise themselves with the relevant Technical and MSDS provided by Alchemie Ltd.

Alchemie Limited

Alchemie Ltd develop, formulate and distribute Epoxy Resins, Polyurethane Resins, Silicones, Model Boards and Sheet Wax for use in the following applications:

- Electrical encapsulation
- Rapid Prototyping
- Prototypes
- Casting
- Gel Coating
- Laminating
- Model Making
- Master Models
- Flexible and rigid mould making

We offer fast service, technical support, development expertise, innovative products, diverse knowledge and experience.

We are a well-established company, with a high level of investment and experience. We implement BS EN ISO 9001.
